

B.1 ODOT Community Impact Assessment Approval

OHIO DEPARTMENT OF TRANSPORTATION

INTER-OFFICE COMMUNICATION

Office of Environmental Services

To: Doug Gruver, P.E., District 8 Deputy Director **Date:** March 11, 2026
Attn: Anthony Pankala, District Environmental Coordinator

From: Erica L. Schneider, Assistant Environmental Administrator - Office of
Environmental Services 

Subject: Community Impacts Analysis Report Approval

Re: BUT-North Hamilton Crossing PID 115755

The Office of Environmental Services Policy Section has reviewed the Community Impacts Analysis, prepared by Lawhon and Associates for the proposed project. The report dated March 2026 was originally submitted to this office in February 2025, with revisions requested on March 24, 2025, September 22, 2025, December 24, 2025, and March 3, 2026.

Based on our review, all original and subsequent comments have been addressed and the report is in compliance with the ODOT-Community Impacts Guidance (July 2025). This correspondence represents official approval of the CIA. The project impacts in combination with agreed upon avoidance, minimization, and mitigation measures will not result in significant community impacts. Therefore, no further coordination is required, unless the scope of the proposed project were to change.

Should you have any questions and/or comments concerning this determination please contact Assistant Environmental Administrator (AEA) Erica Schneider of the Office of Environmental Services Policy Section at (614) 387-0134 or Erica.Schneider@dot.ohio.gov.
